HIMANSU SEKHAR DASH

Full Stack Engineer

DOB: 09/11/1999

As a detail-oriented software developer with an MCA degree and 1.5 year of experience, I am knowledgeable in programming languages including Java and Python. However, my primary experience lies in working with Laravel, a PHP web application framework. I am a self-motivated and hardworking individual who is always seeking opportunities to work in challenging environments and prove my skills. I am eager to utilize my knowledge and intelligence to contribute to the growth of the organization.

Experience

June 2022 -May 2023

HYSCALER
